

CERAMI COMFORT™

INFRARED RADIANT HEATERS

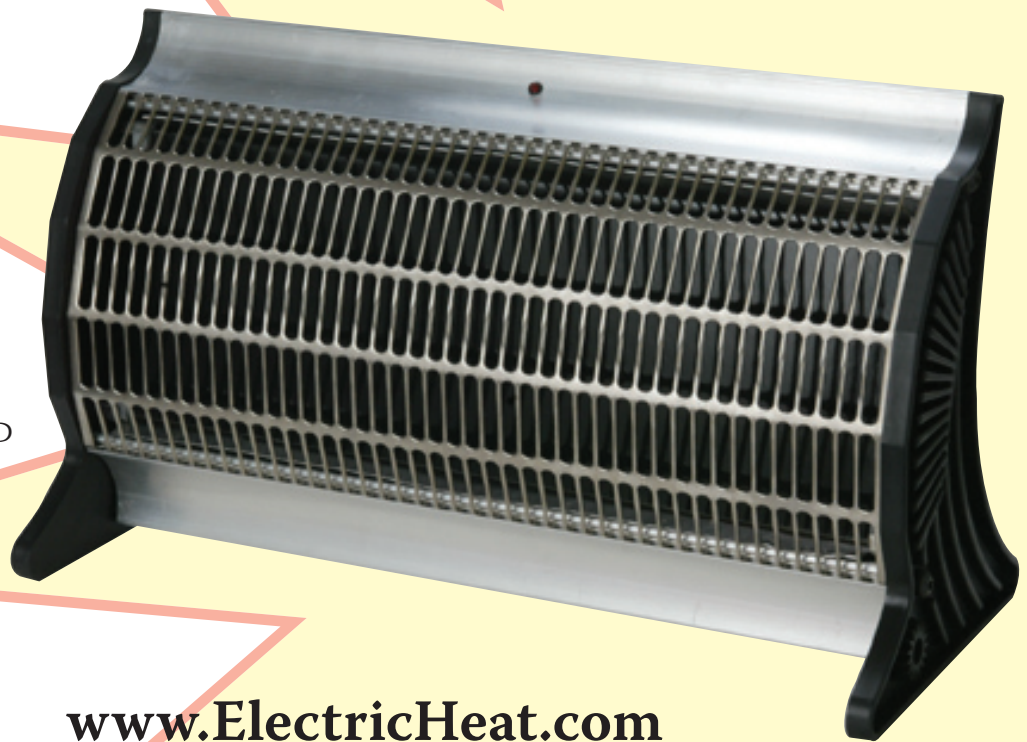

The Ultimate In Comfort Living

MODEL 300-P UNDERDESK INFRARED RADIANT HEATER

Poorly controlled central heating and air-conditioning systems leading to an underdesk chill are a common complaint for many office workers. Building managers concerned about office safety and overloaded electrical circuits are often driven to banning small heaters workers want to bring in for proper comfort. The CeramiComfort™ 300P Underdesk Heater answers both concerns with a highly effective 325 watt output of gentle radiant warmth which can be as effective at providing comfort underdesk as competing 1000 watt units.

- * 325 watts output
- * 120 volts
- * 2.7 amps
- * 11" H x 18"W x 8.25" D
